UNIVERSITY OF NORTHERN IOWA WESLEY FOUNDATION

The UNI Wesley Foundation has established a partnership with Roskamp Champion Industries, an international company based in Waterloo, for a cooperative internship.

Roskamp was interested in some students with academic credentials as well as interpersonal skills. With a division in China, the company was looking for Chinese students who could improve customer service and communication between the American home office and Chinese representatives.

Shiyu Dong has been spending about 12 hours a week at Roskamp

as an intern since graduating from UNI with a degree in accounting.

Now that Shiyu is moving on to graduate school, Tony Tan will become the second intern in the program.

Both Shiyu and Tony have served as peer ministers with the Wesley Foundation where they have learned how to bridge the cultural gap between Chinese students and American students in a variety of settings including worship, Bible studies, service trips, and community meals.

David Glenn-Burns, pictured, is the campus minister at the UNI Wesley Foundation. Read more at www.uni.edu/studentorgs/wesley.
